Spectral Blue

Spectral Blue is the world's most advanced system for indoor surface disinfection. The unique technology is based on safe, natural blue light, and has none of the risks associated with legacy disinfection methods such as ultraviolet light and chemicals.

Guarantee

Vetrom Oy offers a seven-year warranty against manufacturing defects in standard products (materials and construction). For electrical parts the warranty is two years.

Measurements (mm)

Height _____ 2140 - 2170
Width _____ 1140
Depth _____ 1100
